Steve,

This email stands as confirmation that I have reviewed and approved the changes made to the I-95 Express Toll Lanes (ETL) Northbound Extension Project Revised Tier II Social and Economic Justification Form, dated Nov 2023. I notified the nontidal wetlands reviewer Jennifer Bird on Jan 17, 2024 that the revised SEJ was acceptable for the proposed modification.

Let me know if this works.

Angel

I'm being asked for a confirmation from you indicating the SEJ Form is approved. The MDTA is requesting it. Maybe just an email confirming or something easy like that?

Steve,

I've already okayed the SEJ with Jennifer and sent updated Tier II conditions for the modification which were accepted by Amanda. Are you referring to the wetlands review with Lou (#202162053), because that is still on-going? That is the only other project I have currently with a 'Willoughby Beach' connection. I'm sorry, I am not sure what it is you are waiting for.

Angel
